

PART ONE

WORLD WAR 3! This is a hard document for me to write because what potentially lies on the horizon is unimaginable if we do not wake up! I feel the pain of the Earth, and at the same time, my heart goes out to humanity. The pale, black, and red horses of the apocalypse have been unleashed on the Earth. World War 3 began in 2020, threatening to extinguish mankind; sadly, most of humanity does not know we are at war. The COVID-19 virus, with its enhanced functions, is not natural but a military weapon. This is not new information, so many have published research on the covert function of the virus. The scientific evidence points to the virus being created from snake venom in a laboratory and strategically released. According to whistle-blowers who had leaked out documents, estimates range from 20-30 million who have already died from the injections, and the vaccine injuries are incalculable. Many medical researchers and scientists have stated on camera that the death toll will reach 100 million. This would be comparable to those who died in the First and Second World Wars. This war has shown us that the enemy of humanity is no longer a country, an ideology, an organization, or a military power; that way of thinking is long gone. Instead, the greatest enemies of mankind in the 21st century are super viruses and germs; the second is Cyberterrorism. But I will leave the second for another time. The world wars of our modern century will not be fought with conventional weapons because to do so entails the destruction of the very sources of life we depend upon and will jeopardize all life on Earth. Even small-scale munitions and armaments poison or destroy our environment and kill many innocent people and life forms. The Presiding Powers (the Elites, Royals, Organisations, Corporations, and Governments) understand that the more effective and efficient way of achieving their goals is through germ, information, and psychological warfare. It leaves the infrastructure and the systems intact, which they want to use to monitor and control radical free elements. However, they do not know the final result of their strategies because the spirit of man is volatile. The war or a battle could turn against them at any point if YHWH will. It is inevitable if the war on humanity continues and escalates in the next few years, all economic, financial, food, energy, medical, and transport systems upon which we depend will be decommissioned or dismantled to save the planet because they are owned by the Presiding Powers that do not answer to humanity. The big surprise for religious humanity is that the rapture has not come, and we are now faced with the apparent truth that we have entered the time of the Tribulation. It is getting darker, and soon the night will be upon us, "the Great Tribulation," but despair not. Shiloh saw the end and gave us good news: the Tribulation shall be shortened for the elect's sake. This war escalates if we don't know why it happened. We must discover the CAUSE if we are to make any spiritual sense of the global pandemic, the global elite, and the global financial and economic crisis (the Global Status). We must ask who is really behind the Global Status. Warning: At this point, you may decide to bow out and read no further because what we are about to show you will go against everything you understand about "God" and the Bible. It comes from the Throne, and the Royal House of Elohim has been directed to show His children. YHWH calls the people behind the Global Status Elohim's servants! Who are they? They are the Kings/Queens-Rulers-Presidents-CEOs-Generals-Scientists and Leaders who control the World Religions, World Councils/Forums, Organisations, Secret Societies, Banking Conglomerates, Mega-Corporations, Trading platforms, Big Pharma, Big Tech, Big Industry, Big Shipping, and the Military-Industrial Complex, they all work for the Master YHWH as do all of us. These people and things would have no power over the righteous of the Earth unless they are granted from above. They would have failed long ago if they had not had the allowances from Heaven. The evil prospers and does not die because we do not have permission to take them out, and if we manage it, they are soon replaced. Open your eyes and see what is happening everywhere. There is no more freedom, justice, and peace.

PART TWO

War and fear now dominate the media. To make a distinction clear. YHWH did not create the religions, organizations, corporations, banking system, markets, industries, armies, weapons, and technology to injure, enslave, or kill people, destroy the environment, and so forth. Man, with the leadership of haSatan, created these systems and devices. YHWH controls their heads, from the greatest to the least of men, and turns them in the direction of His choice and pleasure. The TaNaK (the Hebrew Scriptures) teaches that Elohim both kills and makes alive! He heals, and He wounds, He raises up, and He brings down! He makes straight and makes crooked! The deceived and the deceiver is His. Ha-Satan is but an instrument of YHWH's commanding. He is and never was equal to YHWH at any point in time. The Supreme Elohim has no equal or rival. We have all been erroneously taught that haSatan has power over YHWH's children when he is, in fact, absolutely powerless against YHWH redeemed. YHWH alone is Sovereign and rules over all, as many Scriptures show, which I am not going to fill this document with. In addition, YHWH calls two pagan Kings in the Scripture His servants and one specifically His Messiah and Shepard. YHWH still uses pagan servants and tyrants today? We must stop pretending that someone else makes this war. YHWH has declared war on humanity! We need to understand why. BY REASON OF TRANSGRESSION! Yisra'el was punished by YHWH many times with pagan kings in His service and their armies because they transgressed the Torah readily. They broke the Everlasting Covenants and Commandments, and He will not spare the transgressions of the Earth. According to two warnings that were issued by Yeshua mankind would set up the abominable thing. I quote two vital passages only: *"Yea, even the innocent beasts of the field shall be greatly oppressed, for every cruelty and lust shall be worked against my innocent brothers and sisters of the great Household of God; for many shall lust after the taste of flesh, and blood shall flow freely as high as the bridle of the horse!"* Humane Gospel Christ. *"...and they shall oppress even the beasts of the field, setting up the abominable thing"* Gospel of the Holy Twelve. This time is characteristic of slaughterhouses that kill hundreds of millions of animals. Man becomes the head of the food chain and kills animals, birds, and fishes to feed without conscience or morality. The planet becomes a mighty "slaughterhouse" to feed man's insatiable thirst and hunger for blood and flesh, hence the reference to the abominable thing, i.e., slaughterhouses. World food conglomerates and world chain restaurants now control these slaughterhouses where rivers of blood flow into reservoirs for processing. Animals, birds, and fish are processed on conveyor lines as long as football stadiums. The daily cry from Nature against humanity has reached the throne room, and proclamations have been issued to end this generation. How bad is it? An estimated 50 billion chickens are slaughtered for food yearly, excluding male chicks and unproductive hens killed in egg production. Nearly 1.5 billion pigs are killed to feed the growing appetite for pork, bacon, ham, and sausages – a number that has tripled in the last 50 years. Half a billion sheep are taken to the abattoir every year. The number of goats slaughtered overtook the number of cows eaten during the 1990s, although the figure for cattle excludes the dairy industry. Regarding seafood, the number of individual fish and shellfish is almost impossible to calculate. One hundred and seventy million tonnes of seafood were produced for human consumption in 2020 – nearly half from aquaculture (trout or shrimp farms) rather than caught in fisheries. We eat more meat per person than ever. In the last 50 years, the number of people on the planet has doubled. But the amount of meat we eat has tripled. Most of this growing demand has come from middle-income countries, particularly China, which became the world's biggest meat consumer as its economy boomed. Why do you think the presiding powers are relentlessly shutting down animal farms everywhere and buying millions of acres of farmlands to produce plant and insect-based foods? Who is moving them to do this? To save us! We believe this is why these "servants of YHWH" are

PART THREE

determined to reduce the world's population and control the movements of humanity. If they fail in their mindset, humanity is doomed, and Science endorses their position. Deforestation to provide billions of acres of grazing land to feed animals for laughter is destroying the planet. Forests, a vital component of life on Earth, cover approximately 31% of our planet's land area. However, more than 75% of the Earth's surface has been modified and degraded by human activities in deforestation. Destroying forests alters weather patterns, destroys habitats, and negatively affects rural communities, causing food insecurity and irreversible damage to entire ecosystems. Studies show that 15,3 billion trees are chopped down every year, and over the past 2,000 years, nearly 50% of the world's trees have been purposefully cleared by humans. Forest loss and damage cause around 10% of global warming; the other 75% is from fossil fuels. It is terrible, and we have reached the tipping point, but this does not of itself warrant Global Judgment. We can still quickly reverse global warming, but we cannot win this war YHWH has declared against humanity if we do not stop harming and killing animals and destroying their homes and ecosystems. To make it clear, the war is not with the Governments, the Organizations, the Banks, the Corporations, the Individuals, etc. (the Presiding Powers), who are behind the global pandemic, the global elite, and the global financial and economic crisis. The war is against humanity for transgressing the Everlasting Covenant. Elohim told Adam precisely what he could and could not eat in the Garden of Eden. An everlasting agreement was forged in Eden called the Adamic Covenant, which prohibited man from killing animals for food to protect the sanctity of life on this planet. This Covenant has never been revoked or changed to allow man to consume animals, birds, and fish. It is through the deliberate and malicious alteration of the TaNaK and Brit Chadashah (Renewed Covenant) that this position appears to have been revoked from certain instances in the Scriptures. Noah and his family did not eat animals; they took into the Ark an abundant supply of grain that fed them for years until their harvest ripened, as it was in the time of Yoseph. After the death of Moshe, the Scribes altered the Word of YHWH in many places. How much of the present-day Scriptures has been falsified is a subject of continuous research as more ancient parchments and scrolls are found and translated. The human sciences are also contributing in their way of substantiating the position that we are not permitted to eat animals, birds, and fish. Medical research shows that eating animals, birds, and fish is the direct cause of many diseases that now plague mankind, which are classified in medical journals as "non-communal diseases." If Science proves the obvious, then the Adamic Covenant still holds mankind to observe this prohibition cautiously, and to go against it is certain death. In the beginning, man was created to be an animal-loving vegetarian. As soon as we broke the eternal Covenant, humanity was placed on a pathway of darkness, sickness, and death that would destroy civilization after civilization. And it has gotten to the point where it has become abominable again. Thus, YHWH has had enough of the torture, abuse, and slaughter of his innocent animals, plus the violence, barbarism, pollution, and deforestation that result from it. The deafening cry of His innocent creation has reached His throne room and ear, and He is very angry. The situation is this: the Great Reset, i.e., depopulation and dehumanization, will prosper as Daniyel predicted, "*and it acted, and prospered*" Daniyel (Daniel) 8:12. Decrees have been issued to end our civilization, and only Eliyahu has the authority and power to delay them until we are ready for the end. By the way, the Presiding Powers do not fear and care nothing of humanity's opposition! They own almost everything and will do whatever is necessary to achieve their plan. Even if the Conservatives were to succeed in America, hidden weapons could be unleashed on humanity with destructive results. Should their plan fail at any one point, their strategies will be revised or changed to achieve their ultimate goal of bringing the population of humanity down to 500,000 and, in the

PART FOUR

process, making every human being a slave and sterile. We are sorry to inform you that all opposition will ultimately fail. They have succeeded only thus far because YHWH sanctions their plan – The Great Reset. Realize finally, YHWH has ordered the extermination of mankind due to the wickedness of humanity. Let me ask. Why would Satan want to destroy humanity when his revealed goal is to make humanity worship him? He cares not whether we are many or few as long as you worship him either directly or through any of his thousands of alternative religions. The truth is he has nothing to gain from the destruction of mankind or the perversion of the wicked who are lost. We have only to blame our transgressions of the Torah. Satan fears the most a Decree closing the age and, therefore, his reign. The Judgments will not stop until humanity, that is, all religions, nations, cultures, and peoples, finally come to their senses. Humanity must do teshuvah (repentance) first on a personal level, second on a family level, third on a community level, fourth on a national level, and finally on a world scale if we hope to survive these Global Judgments. What does this entail? Nine conditions: 1) We must dismantle the slaughterhouses and the distribution chains. 2) Remove the fences and free the animals. 3) Stop all medical and biological experiments on animals. 4) Stop all production of animal-based products. 5) Stop the consumption of animal flesh. 6) Stop the caging of animals. 7) Stop destroying their homes through deforestation and pollution. 8) Stop all AV media showing it is OK to kill or consume animals. 9) Destroy all written media killing or cooking animals. And there is much more we must do, but this is not the place for it. After we do the above, we must grant the animals their inalienable spaces on Earth that we cannot turn into our homes and manage. The boundaries must be defined and protected by rangers and police as parks and reserves, which we can also enjoy as visiting tourists and campers. Really, paradise will return to the Earth. To solve our food problem, we must turn part of the livestock lands into grains, herds, fruits, and vegetable farms using automation; the remaining parts we do not need must be returned to the animals. We are morally permitted to farm only those animals that give us liveable products, e.g., milk, wool, manure, etc., that do not entail harming or killing the animal, and we must reward them accordingly. The food shortages and prices will stabilize quickly, and food will be abundant on the Earth as the prophets predicted. Moshe told us it was a matter of choice a long time ago. *"I call the shamayim (heaven) and earth to record this day against you, that I have set before you chayim (life) and death, blessing and cursing: therefore choose chayim, that both you and your zera (seed) may live:"* Devarim (Deuteronomy) 30:19. Just as YHWH had used pagan kings from the Chaldeans, Assyrians, and Babylonians to chasten His people when they refused to repent of their idolatries and to help later their return to their promised land and begin to rebuild, He now uses Governments, Corporations, and Billionaires to chasten us. Today, humanity is being experimented on, pursued, monitored, controlled, locked down, injured, starved, and killed, mirroring our treatment of animals. Isn't that ironic? The truth will forever remain unchanged: experimenting, imprisoning, and killing animals is morally and spiritually wrong! As long as humankind continues the experiments, caging, torture, and slaughter of innocent animals for food, we will never see the end of genocide, wars, famines, and pestilence. What we do to these the least of our brothers and sisters in the Kingdom comes back on us and our children in every generation and civilization! The downfall and demise of every civilization and nation have been because of this hidden truth. Sadly, no religion wants you to see the connection with the global status because most people have been inoculated by religion to the innocent cry, suffering, and slaughter of animals. In the Kingdom of Elohim, man and the animals will live together in peace, birds will fly in a pristine sky, and all water life will be protected. *"They shall not do evil nor destroy in My entire Set Apart Mountain: for the Earth shall be full of the knowledge of YHWH, as the water covers the sea"* Yeshayahu (Isaiah) 11:9.
